REPORT.

To the Queen's Most Excellent Majesty.

Poor Law Board, Whitehall,
January 31, 1859.

May it please Your Majesty,

We, the Poor Law Board, beg leave to present to Your Majesty the following Report of our proceedings during the past year.

We desire to submit, in the first place, as in former reports, statements showing the condition of pauperism during the past year.

Expenditure for Relief.

The sum of 5,878,386*l.** was expended for the relief of the poor during the year which ended the 25th of March 1858, being a decrease of 20,370*l.* as compared with the sum expended during the preceding year.

The following Table shows the comparison of the expenditure of the years 1856–7 and 1857–8 :—

Years ended Lady-day.	Expended for Relief of the Poor in England and Wales.	Decrease in 1858, as compared with 1857.	Decrease per Cent.	Rate per Head on estimated Population.	Decreased Rate per Head.
	£	£		*s.* *d.*	*s.* *d.*
1857	5,898,756	20,370	0·3	6 1¾	0 1¼
1858	5,878,386			6 0½	

Note.—The Summary of the Poor Rate Return inserted in the Appendix (page 44) sets forth the expenditure, the total of which is shown in the above Table, more in detail. This expenditure comprises, "in-maintenance," column (*a*); "out-relief," column (*b*); "maintenance of lunatics in asylums and licensed houses," column (*c*); "workhouse loans repaid, and interest thereon," column (*d*); "salaries and rations of officers," column (*e*); "other expenses of or immediately connected with relief," column (*f*). Those "other expenses" comprehend the cost incurred for emigration, for extra medical relief and fees, and for the burial of paupers, &c.

The rate per cent. of the increase and decrease respectively in the expenditure for relief, as regards each union-county† in England and Wales, is as follows :—

* This sum is exclusive of the amount (155*l.* 12*s.*) returned by the Scilly Islands.

† A *union-county* comprises all the parishes which form the unions of that county, even where the parishes belong to other counties. For example; the county of Bedford, proper, contains 133 parishes, which, with the exception of 11, are included in the unions of Ampthill, Bedford, Biggleswade, Leighton Buzzard, Luton, and Woburn; these 6 unions comprise altogether 135 parishes, 122 of which are in Bedfordshire, 10 in Buckinghamshire, and 3 in Hertfordshire; and these 135 parishes form the Bedford *union-county*. The 11 Bedfordshire parishes which are not included in the Bedford union-county are thus distributed : 3 are in the Northampton union-county, 7 in the Huntingdon union-county, and 1 in the Hertford union-county. This arrangement is the one adopted in the census of 1851 as well as in the statistics prepared by this Board.

Decrease per cent. :—

Huntingdon	8·2	Northampton	4·1	Rutland	1·6
Cambridge	7·7	Bedford	3·9	York, East Riding	1·5

Average of the 25 years (1834 to 1858)			6 2	

Note.—The net annual value of rateable property in 1841 was 62,540,030*l.*; in 1847 it was 67,320,587*l.*; and in 1850 it was 67,700,153*l.*; for which years alone the Poor Law Board have returns of this information.

In the following Table the expenditure per head on the population for the several years from 1834 to 1858 is given in a different form. The years are arranged according to the amount expended, beginning with the highest sum and ending with the lowest:—

Years ended at Lady-day.	Rate per Head of Amount expended in Relief to the Poor on the estimated Population.	Years ended at Lady-day	Rate per Head of Amount expended in Relief to the Poor on the estimated Population.

The preceding statements, taken from the Annual Poor Rate Returns, have reference to the year ending at Lady-day in each case, and comprise the expenditure for all purposes connected with the relief of the poor in England and Wales.

The following statements show the amount expended for relief only, in 627 unions and parishes under Boards of Guardians (comprising a population of 16,529,865), and afford the means of comparing the expenditure under that head for the years ending respectively on the 29th of September 1857 and 1858, as well as those ending on the 25th of March of the same years:—

Number of Unions.	Years.	Expended for In-Maintenance and Out-Relief.		
		In-Maintenance.	Out-Relief.	Total.
		£	£	£
627	Year ended Lady-day 1857	951,951	2,992,493	3,944,444
	Year ended Lady-day 1858	946,575	2,981,410	3,927,985
Decrease		5,376	11,083	16,459 or 0·4 per Cent.

Number of Unions.	Years.	Expended for In-Maintenance and Out-Relief.		
		In-Maintenance.	Out-Relief.	Total.
		£	£	£
627	Year ended Michaelmas 1857	937,448	2,929,977	3,867,425
	Year ended Michaelmas 1858	916,101	2,929,006	3,845,107
Decrease		21,347	971	22,318 or 0·6 per Cent.

The sum of 846,562*l.*, out of the 3,698,953*l.* shown by the summary, at page 142, to have been expended during the year ended at Lady-day 1858, for in-maintenance and out-relief, has been expended in relief to irremovable poor. The expenditure for relief to this class of poor is, however, in the case of several large parishes and some unions, not distinguished in the returns. Leaving the parishes and unions above referred to out of the calculation, and taking the remaining unions and parishes, with respect to which the distinction has been made, as affording a fair ground for estimating the proportion of this item of expenditure to the whole cost of relief, the cost of the relief to irremovable poor may be calculated to amount to 22·9 per cent. on the total expenditure for relief.

Number of Paupers in receipt of Relief.

The numbers of persons of all classes in receipt of relief on the 1st day of July 1858 and the 1st day of January 1859 respectively, in the several unions and parishes under Boards of Guardians, are shown in the following summaries of returns received from the unions and parishes.

The persons in receipt of relief in certain places under Local Acts, in parishes incorporated under Gilbert's Act, or in single parishes not comprised in unions nor under Boards of Guardians (the population of such places and parishes being 1,298,760) are not included in the summaries given in the preceding page.

We have, therefore, made an estimate of the numbers in receipt of relief in the places not included in the above summaries, based on the actual numbers in receipt of relief in the places which are included therein. The population of the unreturned places for which this estimate is made is 1,298,760; while that of the returned places is 16,628,849. For the purpose then of showing the average numbers *at one time* in receipt of relief during the whole year, both in the unreturned and the returned places, we have taken the mean of the numbers in receipt of relief on the 1st of July and the 1st of January respectively.

The result of this estimate for each year from 1849 (being the first year for which it can be given) to 1858 appears

in the following Table, which may be taken as exhibiting the pauperism of England and Wales.

* The Population for 1851 is that given in the Census; that for the other years is estimated.

The decrease in the average number of paupers of all classes in receipt of relief at one time in 1858, as compared with 1849, is 16·5 per cent.; and as regards able-bodied paupers the decrease in 1858, as compared with 1849, is 32·8.

The metropolis has fully participated in the improved condition of the labouring classes which has distinguished the past year. Our returns of pauperism show that a decrease in the numbers relieved has, with three exceptions, taken place in each week of the last year as compared with the corresponding week of the previous one. (See weekly returns, pp. 202–261.)

Comparing the last day of the last week of each quarter of 1857 and 1858 respectively, the following are the results as regards the metropolis:—

———	Lady-day Quarter.	Midsummer Quarter.	Michaelmas Quarter.	Christmas Quarter.
1857 . .	111,253	90,116	90,191	101,938
1858 . .	106,942	85,772	85,351	95,892
Decrease .	4,341 or 3·90 per Cent.	4,341 or 4·82 per Cent.	4,840 or 5·37 per Cent.	6,046 or 5·93 per Cent.

The last year closed with a smaller number of paupers on the relief lists than on the two previous years; for in 1856 the numbers were 103,491; in 1857, 101,938; and in 1858, 95,892; the last being a decrease of 7·36 per cent. compared with 1856.

Arranging the Metropolitan Unions into five districts, as shown in the Table at page 260, it will be observed that each district is marked by diminished pauperism.

Education of Pauper Children.

A statement will be found in the Appendix (page 262), showing the average number of children attending Workhouse Schools in England and Wales, as well as the number attending District Schools, during the half year ended at Lady Day 1858; and also the amount of money paid in each case, from the Parliamentary Grant, in respect of the salaries of teachers. The following is a summary of this statement:—

Average number of children attending *workhouse* schools during the half-year ended at Lady-day 1858,—

Boys,—
Under 10 years of age . . 9,174
Above 10 years of age . . 8,712

The amount paid to Boards of Guardians out of the Parliamentary grant in respect of the salaries of workhouse and district school teachers, for the year ended at Lady-day 1858	30,856	18	11

The Board continue to avail themselves of every practicable opportunity of improving the education of pauper children, and it is gratifying to them to be able to add that upon the whole an increased interest is annually taken in the subject by those in whose hands, as Guardians, the local administration of the Poor Law and the management of the Workhouses are placed. As one evidence of this, they may refer to the fact, that there is an increasing disposition in the case of large Unions or Parishes to provide schools apart from the Workhouses for the education of the children receiving in-door relief, a course of which the Board can adduce examples this year in the cases of the important parish of St. Marylebone, the Directors of which are now erecting a school at Southall for 450 children, and of the hamlet of Mile End Old Town, where the Guardians are providing a separate school for 300 children. Upon the subject of the education of in-door pauper children in the Metropolitan district generally, the Board think it desirable to insert the following communication which they have received from their Metropolitan Inspector, Mr. Farnall :—

" There are usually 8,900 children in the Workhouses and " several detached schools of the Metropolitan District, and of " this number, 3,700 are found in Workhouses, and 5,200 in " separate or District Schools. Of the above 8,900 children, " 6,900 or 77·5 per cent. are receiving education, the remainder " being principally infants. Their education consists of moral, " mental, and industrial training, and 3,235 of them are being " trained in industry.

" The branches of industry taught are carpentering, tailoring, " the nature and use of a steam engine, shoemaking, spade " labour, music (to fit the boys for the bands of the army and " navy), cooking, baking, sewing, dairy work, laundry work, " and house work ; and there are 2,700 children in separate or " District Schools, under efficient instructors, receiving in their " respective classes this kind of training.

" The management of separate and District Schools is, in my " opinion, on the whole on a satisfactory footing. As some " evidence of this, I may refer to the fact that 846 children " attended the South Metropolitan District School during the " year ended Christmas 1858, that of these 183 went out to " service, 27 of them returned from their situations on account " of sickness and other causes over which they had no control, " while 4 only lost their situations during the year through " their own misconduct.

" I believe that the industrial training of the separate and " District Schools still admits of improvement, and I know that " the Managers are very closely attending to this important " subject.

" There can be no doubt that in conducting these large " establishments the strictest economy should be practised, not " on account of the ratepayers alone, but for the sake of the

" children, who should never see the least unnecessary expen-
" diture, whether it regards food, clothing, or management; and
" I have therefore considered it my duty to bring under the
" consideration of the Managers of the District Schools a com-
" parative statement of the general expenditure of each of the
" Metropolitan District Schools, together with that of the
" Swinton Schools, belonging to the city of Manchester, an
" establishment in which there are usually about 900 children,
" whose progress, according to the last Report of Her Majesty's
" Inspector of Schools, 'is generally creditable,' and where 'the
" industrial training is good.'

" I have the satisfaction of informing you that the Managers
" received my suggestions in the best spirit, and expressed their
" determination at all times to conduct the schools intrusted to
" their supervision with all practicable economy."

With further reference to the subject of separate Workhouse Schools and of District Schools, the Board direct attention to the following extracts from reports from their Inspector, Mr. Pigott, in regard, first, to the detached school at Cowley near Oxford, belonging to the Guardians of the Poor of that city, and, secondly, to the Reading and Wokingham District School, in continuation of remarks made by him last year, and inserted in the Board's last Annual Report:—

" The schools are at Cowley, and now seem to be well
" conducted. The weekly cost for food and clothing does not
" exceed 2*s.* 5*d.* per head, about 3½*d.* of which is derived from
" the farm of seven acres. Eight of the boys are regularly
" taught tailors' and shoemakers' work the remainder work
" in the field. The children get very readily out to good
" service."

" I am glad to be able to report the same prosperous
" condition of this District School [Reading and Wokingham
" District School], that has existed since the appointment of
" the present superintendent and matron, and which is to be
" mainly, if not entirely, attributed to their excellent manage-
" ment of the children and establishment. Indeed, I consider
" its success as a pauper educational establishment to be com-
" plete, notwithstanding many disadvantages of locality, and in
" the arrangement and position of the buildings. The children
" are healthy, intelligent, well conducted, and cheerful. Their
" progress in the ordinary school instruction is on a level with
" that of the best Workhouse Schools. A certain number are
" regularly taught tailors' and shoemakers' work; but the prin-
" cipal occupation of the boys is the cultivation of ten acres of
" light fertile land, with the tending of three cows and a number
" of pigs, by means of which they become healthy and strong,
" and fit for useful service; and, moreover, the profit from their
" labour has enabled the Managers to reduce the cost of each
" child for food and clothing from 3*s.* 8*d.* to 2*s.* 4*d.* per week,
" and thus to effect a saving (on the average of 150 children in

" the school) of about 500*l.* per annum. The total number of " children in the school at this time is 143 ; 72 girls and 71 " boys. The system pursued with the girls is equally judicious. " They perform (with the aid of the cook and laundry maid) " all the household duties, and get readily into respectable " service."

The Board in the early part of the year received a resolution from the Guardians of the Cleobury Mortimer Union, one of the six Unions comprised in the East Shropshire School District, expressing a wish that that Union might be separated from the School District, upon the ground that the connection " had " operated unfavourably to the Union." Although this resolution was accompanied by a protest on the part of the chairman, vice-chairman, and all the ex officio Guardians, yet the Board considered it right to institute inquiries for the purpose of ascertaining how far the school had operated beneficially or otherwise upon the Unions included in the District. The result has been fully to confirm the opinions expressed upon other occasions by the Board, as to the advantages to be derived from the establishment of Industrial Schools for the separate education of pauper children. The Board have consequently declined to assent to the application. From the Managers of the District School, the inquiry of the Board has elicited a very satisfactory reply, approved by the Guardians of other Unions in the District. The advantages of the system of industrial education pursued at this District School are so far appreciated by Unions not included in the District, that the Managers have received applications from several of them to admit their pauper children into the school, and arrangements have been made for that purpose, under the sanction of the Board, with the Newport, Shiffnal, and Kidderminster Unions.

The Board desire to direct attention to two very satisfactory reports addressed by the Clerk of the Leicester Union to the Guardians of that Union, and communicated to the Board by their Inspector, Mr. Weale. One of these reports (see page 36) relates to the conduct and circumstances of juvenile paupers leaving the Workhouse ; and the other (see page 34) to the mode of administering relief to men during their wives' confinement.

Emigration. The number of persons who have received assistance from the Poor Rate during the year to emigrate is 231.

Vaccination. A summary of the Returns received from the several Unions and Parishes in England and Wales, of the number vaccinated by the public vaccinators during the year ended at Michaelmas 1858, is given in the Appendix, page 285. This summary shows the number of persons vaccinated during the present year to have been 468,008, being an increase upon the number vaccinated

in the last year of 44,587. The summary also shows that the number of cases in which the vaccination has been successful is 455,004, which is an increase of 43,736 upon the number successfully vaccinated in 1857.

Workhouses, &c. built or altered.

Further progress has been made during the year in providing new Workhouses, and in enlarging or improving those that previously existed.

We have affixed our seal to the plans of new workhouses for the following Unions: viz., Bolton for 1,000 inmates, Chippenham for 300, Hemsworth for 80, Keighley for 200, Leeds (Township) for 800, Machynlleth for 60, Mile End Old Town (Hamlet) for 500, Scarborough for 200, Seisdon for 120, and Toxteth Park (Township) for 800; and to plans for schoolhouses for Hendon Union for 100 children, for the Parish of Saint Marylebone, at Hanwell for 450 children, for the Hamlet of Mile End Old Town for 300 children; and also to plans for the enlargement or improvement of the workhouses of the following Unions: viz., Banbury, Basford, Basingstoke, St. Mary Magdalen, Bermondsey (Parish), Bishop Stortford, Great Boughton, Bristol (Incorporation), Brixworth, Bromley, Cardiff, Chorlton, Cockermouth, Cuckfield, Dewsbury, Doncaster, Easingwold, Faversham, Gateshead, St. George in the East (Parish), St. George the Martyr Southwark (Parish), Glossop, St. James Westminster (Parish), East London, St. Luke's Middlesex (Parish), Newport (Salop), Newport Pagnel, Paddington (Parish), Pewsey, Plymouth (Incorporation), Richmond (Surrey), Rotherham, Sevenoaks, Shardlow, Stockport, Stoke-upon-Trent (Parish), Strand, Windsor, and Woodstock.

Election of Guardians at Leeds—Malpractices.

In the course of the autumn of 1857 complaints were made to us as to malpractices to a very considerable extent which, it was alleged, had prevailed at the election of Guardians for the township of Leeds in the preceding spring. We therefore directed an inquiry to be made by our Inspector, Mr. Manwaring, assisted by our Assistant Secretary, Mr. Lumley. Those gentlemen having examined a great number of witnesses, made a report, and transmitted the depositions which they had taken. As these documents disclosed the fact that a very large number of appointments of proxies had been forged, and the forged documents had been acted upon, we submitted the evidence to counsel, and upon their advice we deemed it right to institute a prosecution against the persons who appeared to be implicated. The justices at Leeds committed three persons of the name of Beckwith, Cromack, and O'Reilly for trial at the then ensuing Assizes for the county of York. Accordingly we caused indictments to be preferred against them for conspiring to influence the election of Guardians by the use of forged appointments of proxies. The Grand Jury having found a true bill, the indictment came on for trial before Mr. Justice Byles, when the prisoners were convicted and sentenced to imprisonment.

Poor Law Officers—Forged Testimonials.

At the Lincoln Assizes held last spring, one Collings was tried on the charge of uttering forged testimonials in order to procure the office of schoolmaster of the Spalding Union Workhouse, and pleaded guilty. He was sentenced to imprisonment. We deemed it advisable to communicate this fact by a Circular Letter (see page 28) to all Boards of Guardians, with a caution to them to ascertain, as well as they could, the authenticity of the testimonials presented to them.

Audit—Places under Local Acts.

The Statute 7 & 8 Vict. c. 101., which provides for the appointment of District Auditors, excludes from its operation certain parishes which are described in section 65., and are all situated in the metropolis. It appeared to us desirable that, though these parishes could not be included in any such district, they should nevertheless have the benefit of an auditor, with the powers conferred upon such an officer by the Poor Law Acts. We accordingly, on the 14th May 1857, issued an order to the Directors of the Poor of the Parish of St. Pancras, requiring them to appoint an auditor. As this order was not obeyed, we were compelled to apply to the Court of Queen's Bench for a Mandamus to the Directors. The Court having granted the writ, a return was made, grounded upon the presumed operation of the Metropolitan Local Management Acts. Upon this return an argument took place, and the Court gave judgment for the Crown. The Directors thereupon shortly afterwards appointed an auditor, who has since entered upon the duties of his office.

We then issued similar orders to the parishes of St. Marylebone, St. Giles and St. George Bloomsbury, St. George Hanover Square, and St. James Westminster, which have been obeyed by the authorities of the first three parishes.

St. Pancras Workhouse.

We have also to notice, that the Directors of the Poor of the parish of St. Pancras having refused to allow the Metropolitan Inspector to obtain the proper admeasurement and dimensions of their workhouse, in order to enable the Board to fix the proper amount of accommodation in that building, we were under the necessity of applying to the Court of Queen's Bench for the requisite process against them. Cause was shown against the rule, but the Court expressed so strong an opinion in favour of the right of the officer of this Board to enter the workhouse for this purpose that the Directors withdrew their opposition; and we have since been enabled to regulate and determine the number of inmates to be admitted into that house.

Extra-parochial Places—Proceedings under 20 Vict. c. 19.

In our last Annual Report we stated what steps we had taken, in consequence of the statute 20 Vict. c. 19., to provide for the relief of the poor in extra-parochial places. We have since received replies from the various Boards of Guardians to the circular letter which we addressed to them asking for information as to the extra-parochial places situated in or contiguous to their respective unions or parishes; and it appears from those replies that there are 597 such places, either extra

parochial or reputed to be extra parochial, a list of which is contained in the Appendix to our present Report (see page 290). In every instance where the extent or population of the place appeared to render such a course desirable, we addressed a letter to the Clerk to the Justices of the Petty Sessional Division in which the place was comprised, in which we requested him to call the attention of the Justices to the statute, with reference to the particular place within their jurisdiction, in order that overseers might be appointed for it, according to the provisions of the statute; and we also requested to be informed of the names and addresses of the persons appointed as Overseers. From the replies which we have received, it appears that in 278 places which were formerly extra-parochial or reputed to be such, overseers have been appointed. We have since added 96 of such places to the Unions to which they either adjoin or in which they are locally situated; and we have communicated with the Guardians of the respective Unions with a view to the places being annexed to districts for general and medical relief.

We have confined ourselves, however, to certain places where the population is small, and where there is not much probability of the existence of pauperism for many years; but we have abstained at present from dealing in this manner with places where there is reason to expect that there will be many poor requiring relief, because the materials for forming a basis for the requisite averages are as yet wanting.

We have further to report that four places which were formerly extra-parochial have been incorporated with the parishes in which they are locally situated, pursuant to the provision in sect. 4. of the statute.

Overseers' Accounts—General Orders.

We have to notice that in the course of the last year we issued two General Orders, one of which extended to parishes in unions formed since 1842, the regulations regarding Overseers contained in a General Order issued in April 1842 (see page 21); and the other General Order dispensed with a return which had been required under the Order of Accounts of 1847, to be made to this Board annually by the clerks to the Boards of Guardians, respecting the Poor Rates of the parishes comprised in their Unions (see page 23).

Annual Abstract, Form 18.

Legislation:

With reference to the legal enactments, during the last Session of Parliament, affecting the administration of the Poor Laws, we have to observe that the 21 & 22 Vict. c. 67. repealed the provision in the 7 & 8 Vict. c. 107., s. 11., which required annual returns relating to bastardy to be made by clerks to justices and clerks of the peace.

21 & 22 Vict. c. 67.

The 21 & 22 Vict. c. 90., which regulates the qualifications of practitioners in medicine and surgery, and requires them to be registered in future, contained in ss. 33 and 36 prohibition clauses, which provided that no person unless registered under

21 & 22 Vict. c. 90.

that Act should hold the office of medical officer in any Parish or Union; though the prohibition was not to take effect until the second day of February in the present year.

We deemed it advisable as soon as the Medical Council was formed to issue a circular letter (see page 34) addressed through the Boards of Guardians to the medical officers, directing their attention to this new statute, and warning them to take prompt steps to qualify themselves for holding their offices.

21 & 22 Vict. c. 101.

Lastly, the 21 & 22 Vict. c. 101., which relates to Friendly Societies, requires, in section 10., a certificate of a medical practitioner as to the probable cause of the death of a child upon whose life an insurance is effected in any such society, and provides that where the child shall have been attended immediately before its death by a medical officer of a Union on account of such Union, such officer shall give to the parents or friends of the deceased child this certificate without being entitled to a fee; and if the child shall not have been attended by such medical officer nor by any medical practitioner, the medical officer of the Union or parish in which such child shall have been resident shall deliver such certificate and be entitled to receive from the persons applying for the same a fee of one shilling.

All which we humbly present to Your Majesty.

APPENDIX.

No. 1.

DUTIES OF OVERSEERS.—GENERAL ORDER of the POOR LAW BOARD.

To the GUARDIANS of the POOR of the several UNIONS named in the Schedule hereunto annexed ;—

To the Churchwardens and Overseers of the Poor of the said several Parishes, Townships, and Places comprised in the said Unions ;—

To the Clerk or Clerks to the Justices of the Petty Sessions held for the Division or Divisions in which the said Unions are situate ;—

And to all others whom it may concern.

WE, the Poor Law Board, in pursuance of the powers given in and by the Statutes in that behalf made and provided, do hereby Order, with respect to the Unions named in the Schedule hereunto annexed as follows :—

Duties of the Overseers.

Article 1. Every Overseer, in any case of sudden and urgent necessity, giving temporary relief to any poor person in articles of necessity, or in any case of sudden and dangerous illness giving an order for medical relief, shall forthwith report such case in writing to the Relieving Officer of the District or to the Board of Guardians of the Union, and the amount of such relief or the fact of having made such order.

Article 2. Every Overseer receiving an order under the hands and seal of two Justices, according to the provisions of the Act passed in the fifth year of the reign of his late Majesty King William the Fourth, intituled " An Act for the Amendment and better Administration of the " Laws relating to the Poor in England and Wales," directing relief to be given to any aged or infirm person, without such person being required to reside in any Workhouse, shall forthwith transmit the same to the Relieving Officer of the district to be laid before the Guardians at their next meeting.

Article 3. Every Overseer receiving an order for medical relief from any Justice in case of sudden and dangerous illness, shall, as soon as may be after complying with such order, report the fact of his having received the same, and the manner in which he has complied with it, in writing to the Relieving Officer of the District, or to the Board of Guardians of the Union.

Article 4. Every Overseer shall perform such duties in connexion with the Election of Guardians for the Union as may be imposed upon the Overseers by any regulations of the Poor Law Commissioners in force at the time, and shall enter in some book, to be from time to time provided for that purpose, the names and addresses of the owners and proxies having heretofore sent or hereafter sending statements of their claims to vote, and the assessment of the poor rate on the property in respect whereof they respectively claim to vote, which book may be kept in the Form marked (A.) hereto annexed.

Article 5. Every Overseer shall pay over from time to time out of the poor rates, all such sums as by any order of the Guardians of the Union addressed to the Overseers, in writing, according to the Form prescribed by the Order of the Poor Law Commissioners, shall be directed to be

provided from the poor rates of the Union; and shall pay over such sums to such person or persons, at such times and places as by the same order shall be directed, and take the receipt of such person or persons, and produce such order and such receipt as his voucher for such payments before the Auditor of the Union at the audit of his accounts.

Explanation of Terms.

Article 6. The word "Poor Law Commissioners" shall include the Poor Law Board.

Article 7. Whenever the word "Overseer" is used in this Order, it shall be taken to include any person acting or legally bound to act in the discharge of any of the duties usually performed by Overseers of the poor, so far as such duties are referred to in this Order.

Article 8. Whenever the word "Union" is used in this Order, it shall be taken to include an union of Parishes and Places formed under the provisions of the before-mentioned Act.

Article 9. Whenever in describing any person or party, matter or thing, the word importing the singular number only is used in this Order, the same shall be taken to include and shall be applied to several persons or parties as well as one person or party, and several matters or things as well as one matter or thing respectively, unless there be something in the subject or context repugnant to such construction.

DUTIES OF OVERSEERS.—CIRCULAR Letter from the POOR LAW BOARD to Boards of Guardians on the above General Order.

Poor Law Board, Whitehall, S.W.,
28th April 1858.

GENTLEMEN,

I AM directed by the Poor Law Board to transmit to you herewith a copy of a General Order which they have issued, relating to certain duties of the Overseers of Parishes comprised in the several Unions named in the Schedule thereto.

The Order is similar in its provisions to the General Orders issued by the Poor Law Commissioners in the year 1842 to nearly all the Unions formed by them, and to single Parishes under Boards of Guardians, except so far as regards a Form of Rate Book and certain other matters, which have been provided for by other Orders.

I am, &c.
COURTENAY,
Secretary.

To
The Overseers of the Poor.

No. 3.

ANNUAL ABSTRACT OF PAROCHIAL ACCOUNTS.—GENERAL ORDER of the POOR LAW BOARD suspending a Provision of the General Accounts' Order.

To the GUARDIANS of the POOR of the several UNIONS named in the Schedules hereunto annexed ;—

To the CHURCHWARDENS and OVERSEERS of the POOR of the several Parishes and Places comprised within the said Unions ;—

To the Clerk or Clerks to the Justices of the Petty Sessions held for the Division or Divisions in which the said Unions are situate ;—

And to all others whom it may concern.

WHEREAS, by a certain Order, being a General Rule of the Poor Law Commissioners, dated the Seventeenth day of March One thousand eight hundred and forty-seven, addressed (amongst others) to the Guardians of the Poor of the several Unions named in the Firet Schedule hereunto annexed, and by divers other Orders, the dates whereof are respectively set forth in the Second Schedule hereunto annexed, addressed to the Guardians of the Poor of the several Unions therein named, and to the Churchwardens and Overseers of the Poor of the several Parishes and Places comprised within the said Unions respectively, the said Commissioners and Poor Law Board made certain Regulations respecting the keeping, examining, closing, auditing, allowing, and publishing of the accounts of the said several Unions, and of the Parishes therein, and of the Officers thereof.

And whereas the said Orders respectively direct that within the period therein mentioned the Clerk to the Guardians of each of the said Unions shall make an abstract of the separate accounts of each Parish comprised in such Union ; and it is expedient to suspend so much of the said Orders as contains that regulation.

Now therefore, We, the Poor Law Board, in pursuance of the powers given in and by the Statutes in that behalf made and provided, do hereby suspend the operation of so much of the said Orders respectively as directs that within fourteen days after the conclusion of the audit of the accounts of the half year ending the Twenty-fifth day of March in every year the Clerk to the Guardians of the Poor of each of the said Unions shall make up from the Balance Sheet of the Receipts and Pay-

ments of the Overseers, an abstract of the separate accounts of each Parish for the year ending on such Twenty-fifth day of March.

ANNUAL ABSTRACT OF PAROCHIAL ACCOUNTS.—CIRCULAR LETTER from the POOR LAW BOARD to Boards of Guardians on the above General Order.

Poor Law Board, Whitehall, S.W.,
29th April 1858.

SIR,

I AM directed by the Poor Law Board to inform you that they have had under their consideration the provision contained in the General and other Orders of Accounts (issued to most of the Unions in England and Wales), which requires the Clerks of those Unions to make up the Annual Abstract of Parochial Accounts, and that they have deemed it advisable to issue an Order, a copy of which is enclosed, to relieve the Clerks for the present from this particular duty.

At the same time the Board must point out that it will still be incumbent on the Clerks to preserve the Balance Sheets.

FALSE AND COUNTERFEIT TESTIMONIALS.—QUEEN v. COLLINGS.—CIRCULAR LETTER from the POOR LAW BOARD to Boards of Guardians.

Poor Law Board, Whitehall, S.W.,
10th May 1858.

SIR,

I AM directed by the Poor Law Board to bring under the notice of the Board of Guardians the case of the Queen *v.* Collings, which was tried at the last Lincoln Assizes. The indictment charged the accused with having unlawfully uttered false and counterfeit letters and writings, with the intent to procure for himself the appointment of Schoolmaster of the Workhouse of the Spalding Union. He pleaded guilty, and was sentenced by the Court to 18 months' imprisonment with hard labour.

The Board think it right to draw the attention of all Boards of Guardians to this case, as a warning to show how necessary it is to take every precaution in their power to ascertain the authenticity of testimonials presented to them.

I am, &c.
COURTENAY.
Secretary.

ANNUAL REPORTS.—CIRCULAR LETTER from the POOR LAW BOARD to Boards of Guardians on the Distribution of Copies of the Annual Reports of the Board.

Poor Law Board, Whitehall,
12th July 1858.

SIR,

I AM directed by the Poor Law Board to transmit to you herewith a copy of their Tenth Annual Report, and to inform you that the number of copies of this Report placed at their disposal does not enable them to supply more than one copy to each Board of Guardians.

I am directed also to state that, in pursuance of a recent Treasury Minute, the gratuitous distribution of the Annual Reports of the Board will be discontinued after the present year. These Reports, however, like other Parliamentary publications, may be purchased through any bookseller by means of his London agent, or directly from Mr. Hansard, Printer to the House of Commons, at 32, Abingdon Street, Westminster, and 6, Great Turnstile, Lincoln's Inn Fields; and from Messrs. Eyre and Spottiswoode, the Queen's Printers, at their Sale Offices, East Harding Street, near Fleet Street, and the House of Lords.

Each Report, as it is ready for purchase, will be duly advertised in the public papers.

I am, &c.

No. 7.

DESTITUTE HOUSELESS POOR.—CIRCULAR Letter from the Poor Law Board to Boards of Guardians.

Poor Law Board, Whitehall,
30th November 1857.

SIR,

THE Poor Law Board have had lately under their consideration the present mode of administering relief to vagrants and houseless poor in the Metropolitan District.

Until recent years, such poor depended upon their own resources or on charity for food and lodging; but under the new Poor Law the intention is, that systematic relief in a workhouse shall be afforded to this class of persons, in order that no real case of destitution may be uncared for, and that a sufficient test may be supplied in the workhouse, in order to ascertain whether the destitution is real or feigned.

It cannot be said that either of these objects is at present secured in a satisfactory manner in the Metropolitan District.

In many workhouses a ward is set apart for the reception of vagrants. The means of classification are, however, generally defective; good and bad, young and old, clean and dirty, disorderly and deserving persons, are crowded together in many of these wards. The arrangements for examining those who are admitted for a night, for enforcing the use of the bath, and for applying the test of task-work in return for relief, are very incomplete. Great inconvenience arises from this overcrowding. These nightly occupants of the vagrant ward interfere with the regular inmates, harass the officers, and at some seasons and in some workhouses render it impossible to preserve the order or to carry out the ordinary regulations of the establishment.

On such occasions complaints are abundant; the time of magistrates is consumed in dealing with them; and often it happens that they cause very unmerited obloquy to attach to Boards of Guardians, or their officers.

The habitual mendicant has before him in the metropolis the choice of more than 40 places for a night's lodging at the expense of the public; and as the record of one of these places is not accessible to the officers of another, each vagrant may make the round of the whole and always appear as a fresh applicant. But, although the professional and habitual mendicant from his knowledge of the local circumstances may take advantage of this accommodation, it is to be inferred from the reports of the police, that every winter there are many cases of applications for a night's shelter at one or other of the workhouses by persons in a state of temporary destitution which are excluded for want of room.

It appears by a return, presented to the House of Commons on the 21st of last May, that in the year ended Lady-day 1857, 66,009 admissions were granted for a night's lodging in the vagrant wards of fifteen of the principal workhouses included in the Metropolitan District, and from another source it appears that during three months only of the winter season of the same year no less than 54,600 were admitted into the charitable refuge at Playhouse Yard.

There are other inconveniences in the present system, deserving of attention, namely, the diversity of the kind of relief administered in the vagrant wards of different workhouses, and the great disproportion between the burden cast on one union compared with that which is imposed upon another. Instances of this may be seen in the return above mentioned where unions and parishes adjoining each other have been subject to a very different amount of charge:—

	Number of Admissions.
Westminster:—	
St. Margaret and St. John	10,477
St. James	428
St. George, Hanover Sqnare	210
Kensington	4,323
Fulham	2,377
Chelsea	178
St. Pancras	11,375
St. Marylebone	348
West London	5,976

	Number of Admissions.
East London	245
St. Leonard, Shoreditch	13,270
Bethnal Green	1,083
St. George the Martyr	12,958
St. Mary, Newington	824
Bermondsey	1,937

If it be borne in mind that the vagrant poor included in this return have no connexion with the locality which is required to furnish them with relief, and that tramps, for the most part, are attracted, not to one or other parish, but to the metropolis generally, as a centre of wealth and abundance, an equitable view of the case seems to demand, not only a more even division of the trouble and cost of managing and relieving them, but also the adoption of a different basis of taxation from that which is established in regard to the ordinary destitute poor.

It appears, then, to the Board, that a better system than that which is in operation for relieving the fluctuating population of houseless and wandering poor in the metropolis may be devised, which should contain the following provisions :—

Firstly.—To ensure a better test of destitution by one uniform system of labour, discipline, and treatment, in return for relief.

Secondly.—To check vagrancy, by diminishing the number of receptacles, and by establishing a system of supervision which will afford some ready method of detecting all second applications.

Thirdly.—To relieve the workhouse, from the dirt, annoyance, clamour, and contagion of tramps, pickpockets, and prostitutes, so that the ordinary inmates, the majority of whom are aged and infirm persons, may be left undisturbed, and the officers may not be interrupted in their proper functions.

Fourthly.—To ensure a refuge for all who are really destitute and homeless, so arranged that the decent and well conducted may find a night's shelter, without being exposed to an intercourse with filthy and immoral temporary inmates.

Fifthly.—To apportion more equally amongst the parishes and unions of the metropolis the charge of such relief.

The Legislature some years since made a provision by the Act 7 & 8 Vict. Cap. 101. which, in the opinion of the Board, affords a means of dealing effectively with this subject well worthy of the attention of the guardians of the several unions and parishes in London.

That Act enables the Poor Law Board to combine several unions and parishes into one district for the relief of the houseless poor, to be managed by a board containing representatives of all unions and parishes included in such district, with power to erect, purchase, or hire a district asylum, and to charge the expenses upon each union and parish included within the district, according to the value at which they are assessed to the county rate.

If the provisions of this Act should now be carried into operation, the result would be that the whole Metropolitan District would be divided into a number of Asylum Districts, having each a board of management who would meet regularly for the purpose of carrying out the necessary rules and regulations for the reception and relief of poor persons admitted into such asylums.

Plans might be adopted for securing the co-operation of the police, who have the earliest and most complete means of becoming acquainted with all persons wandering in the streets in a destitute state; and thus, by the combined action of the police and the officers of the guardians, all

proper objects would be immediately transferred to the asylums, while impostors would be detected and rejected.

Appended to this circular is a proposed scheme for dividing the metropolis into six Asylum Districts, to be called the "Metropolitan Central Asylum District;" the "Metropolitan South-eastern Asylum District;" the "Metropolitan South-western Asylum District;" the "Metropolitan North-eastern Asylum District;" the "Metropolitan North-western Asylum District;" and the "Metropolitan Western Asylum District." This proposed scheme shows the places to be comprised in each district, the population of each place, the number of guardians which each place will be entitled to return, together with their qualifications.

The effects of this measure in a moral and pecuniary point of view can of course be accurately ascertained only by practical experience beforehand; but it appears to the Board that the following results may be safely anticipated:—

1. That many habitual and sturdy impostors, who now live upon the public, being brought under regular supervision and discipline, will be driven into habits of self-reliance, if not of industry; and that mendicancy will be checked in the metropolis, by the combined action of police and asylums, in the same way as it has been checked in several counties where a paid constabulary has been employed to act as agents of relief under the direction of boards of guardians.

2. That the really destitute and houseless poor will be provided with a certain and ready access to a night's lodging, in decent quarters; whereas at present it is well known that many applicants find the door closed for want of room.

3. That society will be protected, both in respect of private alms, now often bestowed on undeserving objects, upon importunity and even threats; and also in respect of public rates, since economy and discrimination can be much more effectually exercised in a small number of houses, prepared expressly for the purpose, on one uniform system, than in a multitude of vagrant wards not suitably prepared, having each its own method of treatment, and in many of them with very inadequate accommodation.

4. That all the combined parishes in the metropolis will contribute towards this desirable purpose on the same proportionate system as they contribute to the other public burdens of the county in which they are situate.

With respect to the cost of this plan, the Board do not wish to suggest any proceeding which should involve a large permanent outlay. It appears to them that in each district hired premises of an inexpensive character, with simple interior arrangements, an intelligent master and matron to each, and such assistance as they may necessarily require, together with labour yards, baths, and dormitories for each sex, would be sufficient for the purpose.

From the report issued by the institution of the houseless poor for the year 1857–8 (the principle of that charity being to give nightly shelter and food during the winter months, and therefore analogous in that respect to the scheme here delineated), it appears that the sum of 1,139*l.* 16*s.* 4*d.* was expended in affording relief in 53,311 instances; each case, therefore, cost $5\frac{1}{10}d.$ Of this amount, 461*l.* 1*s.* 9*d.* was employed in the payment of salaries and rent of the house; each case, therefore, cost 3*d.* a night for food, and $2\frac{1}{10}d.$ for management and rent of house.

Guided by the experience derived from this charitable institution, and making allowance for the cost of supporting six asylums, and for the increase in the number of applicants, which doubtless would be the immediate result, by decent accommodation being substituted for the present

inadequate and indifferent provision, the guardians of the poor will still find the total expense to be within such limited bounds that it need not deter them from adopting a material improvement in our present defective mode of dealing with a very crying evil in our social system.

The Board, in laying this statement before the guardians, desire to express their anxiety to consult the wishes and opinions of gentlemen actually engaged in the administration of relief in the Metropolitan District. They invite remarks or suggestions from those who have given their attention to the subject in a practical shape; and as their only object is to effect a result which shall be beneficial to society, they hope to receive the assistance of those who are most immediately concerned in carrying the law into execution. The subject is one which commends itself to the attention of those who are concerned in the administration of relief, in respect of humanity, good order, and economy. The risk that the expenditure may prove unduly burdensome is small, while the certainty of a good result is great.

The proposed experiment therefore, deserves, in the opinion of the Poor Law Board, a careful consideration and a fair trial.

I am, &c.

To COURTENAY,

The Clerk to the Board of Guardians. *Secretary.*

No. 8.

REGISTRATION OF MEDICAL OFFICERS.—CIRCULAR LETTER from the Poor Law Board to Boards of Guardians.

Poor Law Board, Whitehall, S.W.,
23d December, 1858.

SIR,

I AM directed by the Poor Law Board to inform the Guardians that by the Statute of the last Session of Parliament, 21 & 22 Vict. c. 90. Sect. 34., it was enacted that after the first day of January next, no person shall hold any appointment as a Physician, Surgeon, or other Medical Officer in any house of industry, parochial or union workhouse or poor-house, parish union, or other public establishment, body, or institution, unless he be registered under that Act.

By the thirty-third clause it is provided that no person, who on the 1st of October last was acting as Medical Officer under an Order of the Poor Law Commissioners or Poor Law Board, shall be disqualified to hold such office by reason of his not being registered, as therein required, unless he shall have failed to be registered within six months from the passing of that Act.

The Act was passed on the 2d day of August last, so that the term specified in this clause will expire on the 2d day of February next.

The Board find that the Medical Council, constituted by this Act, have appointed Dr. Francis Hawkins to be Registrar; and in the London Gazette of the 17th instant, notice has been published by him, stating that all persons requiring to be registered may apply personally, or by letter, to the Registrar at No. 18, Bolton Row, Piccadilly, London, W., between the hours of 11 a.m. and 4 p.m. Those who apply by letter must state their names, places of residence, and the qualification in respect of which they desire to be registered, and transmit to the Registrar the fee of 2*l.*; and those who do not produce or send their diplomas or licences, must furnish clear statements of their qualifications, and of the times at which they were granted, in order that they may be compared with the certified Acts.

The Board request the Guardians to bring this communication under the immediate notice of all their Medical Officers, and for this purpose the Board enclose six copies of this Circular for distribution.

As the period for registration is now very short, the Board recommend that the Medical Officers should use the utmost promptitude in their application to the Registrar, to prevent the occurrence of any disqualification.

I am, &c.

To
The Clerk to the Guardians.

W. G. LUMLEY,
Assistant Secretary.

No. 9.

RELIEF TO PERSONS DURING THE CONFINEMENT OF THEIR WIVES.—REPORT to the BOARD of GUARDIANS of the LEICESTER UNION by B. G. CHAMBERLAIN, ESQ., the Clerk of the Board.

GENTLEMEN,

Leicester, 11th January 1859.

IT will be in the recollection of the Board that in May last a scheme was adopted to meet the cases of that class of applicants for relief who were so in consequence of and during the confinement of their wives. As the system then adopted has been carried out to the present time and still continues, it may be interesting to the Board to know its results so far as they have been ascertained. For years previous to the adoption of the system referred to these cases had gone on increasing, until it had

become a thorough habit immediately a woman was confined, and consequently irremoveable, for the husband to apply for relief, and as the Board at that time had no means of testing his necessities, he almost invariably obtained assistance, usually for a period of two weeks. That many of these cases were really necessitous there can be but little doubt, but it is almost certain that in many cases the union funds were applied where no real necessity for that application existed. The plan laid down in May last to meet these cases, and which is fully explained in the printed regulations appended hereto, may be briefly stated, as ordering relief in all such cases to meet the present necessities of the applicants, but if a continuance of that relief be required, then the applicant is to be set to work, and receive daily relief until such time as his wife has recovered, and is again able to attend to her usual duties. In framing the scale of relief care was taken that it should equal, if not exceed, what the applicants themselves declared were their average amount of earnings, thus meeting the objection that they would be required to work for the Board for an insufficient amount of relief. This new system commenced in the week ending 22d May last, and an account has been taken of the amount of relief given under it up to the end of Christmas quarter, December 25th. During that period 59 cases are entered in the books, and the expenditure upon them amounted to 11*l.* 19*s.* 1½*d.*, or about 4*s.* 0½*d.* per case. Out of this number five persons only were found who continued at work the 14 days allowed, and they received out of the sum above named 4*l.* 18*s.* 1½*d*; the relief to the other 54 cases being on an average 2*s.* 7*d.*, or little more than the temporary relief afforded on the first application. Besides the cases entered on the books of the union there have been several applicants for relief under these circumstances who, when furnished with a copy of the regulations, have declined to receive the relief upon the terms therein set forth, which doubtless would not have been the case had the old system prevailed. The fact of their applying proves their willingness to receive parochial relief, but their refusing to accept it on the conditions proposed also proves, either that they did not really require it or that they had other and more profitable labour to go to. In order to ascertain as far as possible the difference between the old and present system of dealing with this class of cases, the names of the persons relieved during a similar period of the year 1856 have been extracted from the books. From May to December inclusive in that year the number of cases relieved on account of the wives' confinement was 61, and the sum expended in relief was 23*l.* 16*s.* 7*d.*, and upon an average about 7*s.* 9¾*d.* per case. The year 1856 being the panic year it was thought that it would be unfair to institute a comparison between it and the year just ended, but by comparing 1856 with 1858 the two periods would be more equal, and as far as the trade of the town is concerned the balance, if any, would be in favour of the former period. The mere saving of money effected by the present plan in dealing with these cases is its least recommendation. That it does this has been demonstrated, but it does much more, it teaches the persons who hitherto have, upon all such occasions, immediately sought parochial aid, to make provision for themselves, while to those who are in real necessity it affords increased relief. The scheme itself is but an adaptation of the out-door labour test in operation during the pressure of 1857–58, and besides being applied to the cases above referred to it has been found eminently useful in others. Persons at all acquainted with the widely different character of the inmates of our workhouses well know that there are in most a class of single men well able to work, but who seem to prefer the workhouse to seeking an independent maintenance. To many of this class has the labour test been applied with advantage, and some who for month after month remained and appeared contented in the workhouse have soon left

the work provided for them out of it, and are now providing for themselves elsewhere as independent labourers. The improvement in trade has contributed materially to reduce the number of paupers, but the manner in which the Guardians carry out the law and its improved administration to meet, as in this instance, peculiar cases, have been equally beneficial. Poverty and need have been well cared for, while pauperism has been depressed. To illustrate this it is only necessary to state, that while the average number of persons relieved in the last week of the quarter ending at Christmas from the year 1851 to 1857 inclusive has been about 4½ per cent. of the whole population, the number relieved for the same week during the year just ended, as compared with the population, is under 3 per cent.

Juvenile Paupers.—Report to the Board of Guardians of the Leicester Union on the Conduct and Circumstances of Juvenile Paupers when leaving the Workhouse.

Gentlemen, *Leicester, 31st January* 1859.

Some months ago the Board ordered a return to be prepared of the number of boys and girls who during the two years then past had left the Workhouse to be apprenticed, or for domestic service, showing, as far as practicable, how they had conducted themselves, and their present position. To present such a return in a tabulated form was found impracticable, and I have therefore adopted that of a Report as more convenient, and as affording means to notice matters which otherwise must have been omitted. During the period referred to, 14 boys were apprenticed and 15 girls went into service. The names of the boys are returned in the visiting sheets of the relieving officers hereto annexed. These show that in twelve cases the boys have been and are conducting themselves well, and without any complaint on their part or on the part of the masters. In one case the master complained that his apprentice had been out at night on one or two occasions later than he approved; the relieving officer admonished the boy for this, and he promised to avoid this cause in future: it is but justice to the boy to say, that since that time no complaint has been made against him. In the other case the boy has been guilty of robbing both master and fellow apprentice; after which he absconded, and he is now undergoing a term of imprisonment in the borough gaol. This boy was of known bad character, having been detected in pilfering both from his companions in the workhouse school and also from a previous master. His late master took him knowing this, in the hope that, by kind and judicious treatment, he might be able to eradicate the boy's bad habits, and train him to be a respectable member of society. For more than a year he went on well, and there seemed every prospect that his master's exertions would be successful, but he suddenly relapsed into his former courses, which have led to his imprisonment as a felon. That the boys have done so well is, I conceive, mainly to be attributed to the measure adopted by the Board, first, by giving such an amount of premium as will procure respectable masters, and secondly, to the careful inquiry that is made as to the character of the proposed masters previous to the binding by the apprentice committee.

The girls who left the workhouse for domestic service are fifteen in number; of these the first four have long since left the places to which

they were sent, and nothing is known of their present position. Four others have left their respective places, and are at factory or warehouse work; two others have returned to the workhouse being out of place; and five others are still in service, discharging their duty to the satisfaction of their employers. From this statement it is clear, that as a rule the boys have done considerably better than the girls, which I consider may reasonably be accounted for. The boys are bound to their masters for a stated period, and are thus spared the temptation which the parents and relatives of the girls too frequently use to induce them to quit their places for other employment, in order that they may benefit thereby. Nothing is more difficult than to persuade these poor people to forego a present advantage, however small, for an ultimate benefit, however great it may be. This was exemplified in the case of one who was most comfortably placed, and was giving satisfaction to her mistress. Her mother was constantly persuading her to leave, and return home, which she ultimately did, but with evident regret. That these poor girls have the same failings as others is undeniable; but a severe source of trial to them is, I fear, the inconsiderateness of many mistresses. Some persons seem to imagine that, having agreed to pay a certain amount of wages, their servants ought to do every thing they require, and it is to be feared that not unfrequently they scold and rate the girls for their ignorance of housewifery to cover their own deficiencies in that particular. All experience has shown that the readiest way to make good servants is to let them feel that their employers really take an interest in their welfare; not to be too exacting; and, remembering the imperfections of human nature, not to treat a venial fault too harshly; to make the situations of their servants comfortable, and to secure efficient service by depending less upon the amount of wages than upon the goodwill that will grow up between them for the little kindness both given and received. In one particular this inquiry has been most gratifying,—not one of the girls, so far as can be ascertained, have fallen into vice or crime, nor has one of them returned to the workhouse with any stain upon her moral character.

No. 11.

Poor Rate Return.—Extract from Remarks prefixed to the Return made to Parliament of the Poor Rate Return for the Year ended at Lady-day 1858. [*No.* 98. (D.) *Sess.* 1858.]

Series of Returns.

The present Return is the *fifty-first* annual publication of the authentic series; the date and reference to the official record of each of its predecessors is printed in the preface to the Return of 1857 (*vide* "Poor Rates and Pauperism," Return (D.), No. 77, Sess. 2, 1857).

Parishes included in the Return.

In respect of the number of places which it represents, this Return is the most complete of the Statistics of Pauperism; for in it the sums levied and expended as Poor Rates throughout the whole of England and Wales are exhibited; excepting only six small parishes, which are stated by the Overseers to have "No Poor."

The number of parishes maintaining, or liable to maintain, their own poor, is printed in the following Table, which relates to the parochial year under consideration :—

Authority.	Description.	Number of Parishes.
Poor Law Amendment Act -	585 unions - - - -	13,964
	20 single parishes - - -	20
Local Acts (various) - -	21 unions - - - -	320
	15 single parishes - - -	15
Gilbert's Act (22 Geo. 3. c. 83) -	12 unions - - - -	200
	2 single parishes - - -	2
43d Elizabeth, cap. 2 - -	94 parishes (including the Scilly Islands, now returned for the first time as *five* parishes).	94
	TOTAL - -	14,614

Population. England and Wales is thus represented in relation to the Poor Rate Return :—

	Population in 1851.
14,608 Parishes returned - - - - - -	17,901,396
6 Parishes unreturned - - - - - -	3,831
Extra-parochial places - - - - -	22,382
TOTAL - -	17,927,609

Parochialization. The "Extra-parochial" places were not, heretofore, liable to maintain their own poor ; but they are now becoming parishes, under the operation of 20 Vict. cap. 19 (Extra-parochial Places Act) ; but the ultimate addition this will make to the existing parishes is not at present known.

Value of Rateable Property. The net annual value of property assessed to the poor's rate has been returned in respect of three parochial years ; namely,

YEARS.	Net Annual Value.	Rate in the £. of Levy.	Amount levied.
	£	s. d.	£
1840–41 - - -	62,540,030	2 0·4	6,351,828

1849–50 - - -	67,700,153	2 1·8	7,270,493

Receipts and Expenditure in 1856, 1857, and 1858. The Returns, in a contracted shape, are exhibited in the next Table, for the last three years, with the rate per head, on the estimated population, of the amount levied as Poor's Rate, and of the amount expended in relief :—

Years ended at Lady-day.	RECEIPTS.			EXPENDITURE.			RATE per HEAD.

It is worthy of remark that while the Relief has been falling, the Expenditure for "all other purposes" has been rising considerably; thus between 1858 and 1856 the fall on the former item was 125,702*l.*; the *increase* on the latter, 363,348*l.* From this it results that there is a considerable increase in the total expenditure of the rate, notwithstanding the diminished cost of relief.

Principal Charges which constitute Relief to the Poor.

The principal heads of expenditure, which constitute "Relief to the Poor," are shown in the next Table, together with the average price of wheat for the three years. The amounts entered in sub-column (*e*), as "Other expenses of or immediately connected with relief," contain the sums expended for the maintenance of pauper lunatics in asylums and licensed houses; this was separately returned for 1856–57, for the first time, as 377,658*l.* 11*s.*; in 1857–8 it had risen to 397,825*l.* 10*s.*

The total expenditure for relief, and the constituent amounts, so far as they can be discriminated by seven colums, are shown in the next Table, for each division of the kingdom, during the year ended at Lady-day 1858:

Ratio of Principal Charges to total Relief.

In the next Table the population is estimated up to the middle of the parochial year 1857–58, at the ratio of increase which took place between 1841 and 1851; the rate per head, for "Relief to the Poor," computed on that estimate; and the per centage, which each of the principal heads of relief bears to the total relief, exhibited:

Medical Relief.

The column in the Return which succeeds that of "Total Expenditure," contains the expense of Medical Relief only; this consists of salaries to the Medical Officers; extra Medical Fees paid to them under the General Consolidated Order; also, the cost (if any) of medical and surgical appliances, and drugs. The sums in this column are not additional to those given in column 4, § A, of the Return; because, the various items of Medical Relief are included in sub-columns (*e*) or (*f*), as forming a portion of the "Relief to the Poor;" the "Medical Relief" is printed separately as indicating an important and special subject of Poor Law administration.

The sums expended under this head during the three last years were as follows:

	£
For 1855–6 - - - -	231,872
1856–7 - - - -	231,623
1857–8 - - - -	230,696

School Districts.

Twenty-six Unions and single Parishes, chiefly Metropolitan, are combined into School Districts; the contributions which each Union makes to the Treasurer of its district are included in the other items of relief, and, as such, entered in the proper columns of the Poor Rate Return; this, then, like the Medical Relief, does not represent any additional expenditure, having been properly included in the amounts printed opposite to the respective Unions concerned, at pages 52 *et seq.*

The sums contributed by each Union to the School District, and the sums expended by each district and for each Union during the parochial year 1857–8, are contained in the subjoined Tables:

IN-MAINTENANCE AND OUT-RELIEF.—EXTRACT from Remarks prefixed to Return made to Parliament of In-maintenance and Out-relief for the Half Year ended Lady-day 1858. [*No.* 77 (*c.* 1.) *Sess.* 2. 1857.]

THE present statement embraces Returns from 643 Unions and single Parishes under Boards of Guardians; of this number, 14 places are now returned for the first time. Number of Unions returned.

The amount expended in the 643 Unions and Parishes during the half-year was, for—

In-maintenance.	Out-door Relief.	Total.
£ 559,741	£ 1,567,974	£ 2,127,715

The population of the places referred to was 17,626,365, according to the Census of 1851; the entire population of England and Wales then being 17,927,609.

The sum expended for irremovable paupers can be shown for 610 Unions and Single Parishes only; the other places keeping no separate account of their disbursements to this class of poor. Irremovable Paupers.

The 610 Unions and Parishes contain about 15-17ths of the entire population of the Kingdom; the sum expended in them for relief during the half-year was, for

	In-maintenance.	Out-door Relief.	TOTAL.
	£	£	£
Irremovable Paupers -	75,592	376,722	452,314

TOTAL - £	454,158	1,464,552	1,918,710

The cost of relief to the Irremovable Paupers was 30·8 per cent. on the cost of relief to the other Paupers during the half-year; but during the half-year ended at Michaelmas last, the ratio was 28·4 per cent.; so that the proportion has risen 2·4 per cent. Ratio of Relief to Irremovable Paupers.

In 15 Union-Counties, the sum expended for Irremovable Paupers, was *one-third* and *upwards* of that disbursed for other Paupers. The following Table shows the results, arranged according to the ratio which one description of relief bore to the other:

State of Employment.

The activity of our trade and manufactures, and consequently the extent of employment among the labouring population, during the three periods under consideration are to a certain extent indicated by the official Tables of the declared value of the exports from the United Kingdom.

The amounts for the half-years ended at Lady-day, were in

Comparative Expenditure in Divisions.

Comparing the expenditure for In-maintenance and Out-door Relief of the Lady-day half year 1858 with that of 1857, it will be found there was an *increase* of 60,560*l.*, or 3·1 per cent.; but it will be seen, by the next Table, that this increase arose from *five* divisions only; the other *six* exhibiting *decreases* varying from 2·3 to 6·4 per cent.

Paupers relieved.

The paupers relieved on the 1st January, that is, on a day which falls in the middle of the Lady-day half year, are taken as a good representation of the average number relieved during the time which elapses between the 29th September and the 25th March. The next Table, which relates to the same 627 Unions as the Table of Expenditure printed at page 120, exhibits the pauperism on the 1st of January for the three periods :—

IN-MAINTENANCE AND OUT-RELIEF.—REMARKS prefixed to the Return made to Parliament of In-maintenance and Out-relief for the Half Year ended Michaelmas 1858. [*No.* 98 (*c.*) *Session* 1858.]

Number of Unions returned.

THE Returns of In-maintenance and Out-door Relief, printed at pp. 20–63*, have been received from 645 Unions and single Parishes under Boards of Guardians; with the exception that two of that number, namely, Shrewsbury, and Montgomery and Pool, give the cost of In-maintenance only. The whole of England and Wales is here returned, with the exception of those Parishes which are under Gilbert's Act, or which are still under the provisions of the 43d Eliz. cap. 2.

The amount expended in the 645 Unions and Parishes during the half year was, for—

In-maintenance.	Out-door Relief.	Total.
£ 469,258	£ 1,441,350	£ 1,910,608

The population of the places referred to was 17,666,030, according to the Census of 1851; the entire population of England and Wales then being 17,927,609.

Irremovable Paupers.

The sum expended for Irremovable Paupers, can be shown for 608 Unions and single Parishes only; the other places keeping no separate account of their disbursements to this class of poor.

The 608 Unions and Parishes contain about 15-17ths of the entire population of the Kingdom; the sum expended in them for relief during the half year was, in respect of—

TOTAL -	371,521	1,342,504	1,714,025

Ratio of Relief to Irremovable Paupers.

The cost of relief to the Irremovable Paupers was 30·5 per cent. on the cost of relief to the other Paupers during the half-year; but during the half-year ended at Michaelmas 1857, the ratio was 28·4 per cent.; so that the proportion has risen 2·1 per cent. in the interval.

In the Return for Lady-day 1858, a Table was given of 15 Union Counties in which the sum expended for Irremovable Paupers, was, during the half-year *one third* and *upwards* of that disbursed for other

* The contract price of bread per 4lb. loaf in the adjoining parish of St. George-the-Martyr, Southwark, in the Michaelmas half-years of 1856, 1857, and 1858, was 7¼*d.*, 6*d.*, and 4⅝*d.* respectively.

The extent of employment among the labouring population during the three periods under consideration is, to a certain extent, indicated by the official Tables of the declared value of the imports and exports of the United Kingdom. State of Employment.

The amounts for the half years ended at 30th September, were, in—

Paupers relieved.

The Paupers relieved on the 1st July, that is, on a day which falls in the middle of the Michaelmas half year, are taken as a fair representation of the average number relieved during the time which elapses between the 25th March and 29th September. The next Table, which relates to the same 627 Unions as the Table of Expenditure printed at page 132, exhibits the pauperism on the 1st of July for the three periods :—

1st day of July.	Number of Paupers in receipt of Relief.	Decrease, as compared with 1856.	Decrease per Cent.	Number of Adult *Able-bodied* Paupers in receipt of Relief.	Decrease, as compared with 1856.	Decrease per Cent.
1856	796,102	- -	- -	123,050	—	—
1857	784,051	12,051	1·5	119,489	3,561	2·9
1858	788,248	7,854	1·0	122,812	238	0·2

The cost of In-maintenance and Out-door Relief is about 72 per cent. of the entire expense of "Relief to the Poor :" the other items of relief are, "Cost of Lunatics in Asylums," "Workhouse Loans and Interest," "Salaries and Rations of Officers," and "Other Expenses immediately connected with Relief."

No. 26.

REMARKS ON THE RETURNS OF PAUPERISM.—SUMMARY of Returns of the Number of Paupers relieved on the 1st July 1858. [*No.* 98 (B.) *Sess.* 1858.]

THE present paper embraces Returns of the number of paupers relieved on the 1st July 1858 in 645 Unions and Single Parishes under Boards of Guardians, which is the largest number of places hitherto returned. The residue of the Kingdom consists of the Parishes claiming to be incorporated under Gilbert's Act, or which are still under the provisions of the 43rd Eliz. c. 2.

The 645 Unions and Single Parishes contain an aggregate population of 17,666,480 (Census 1851).

The total number of paupers on the 1st July last, was,

In-door.	Out-door.	Total.
111,503	714,677	826,180

The estimated population of these Unions is 19,250,000; the proportion of paupers to that number is 1 in 23, or 4·29 per cent.

The incorporations of Shrewsbury and Montgomery and Pool, being only constituted for the purpose of administering relief within a workhouse, make no return of the out-door paupers relieved by the Overseers in the Parishes within those districts.

The 645 Unions and Single Parishes are printed *in extenso* at page 30 *et seq.*; but a summary is given of 629 of those Unions, according to a more minute classification at pages 18 to 25; the latter Unions making their returns according to the form prescribed in the general order of accounts of the Poor Law Board.

Comparing the numbers returned on the 1st July and the 1st January, the statement stands thus:—

DATE.	Number of Unions, &c.	In-door Paupers.	Out-door Paupers.	TOTAL.
1st January 1858 -	643	137,315	809,454	946,769
1st July 1858 - -	643	111,308	714,677	825,985

The ratio per cent. of paupers on the 1st January and the 1st July on the estimated population, was 4·94 and 4·29 respectively.

The nine following tables relate to 642 Unions and Single Parishes, having a total estimated population of 19,047,000. St. Pancras is excluded, because the return from that parish is not sufficiently complete to be available. Shrewsbury and Montgomery and Pool are also left out of the comparison, as they were not returned in January last.

The first table exhibits the number of males, females, and children, and the number of vagrants, the latter being returned without distinction of sex, relieved in-door and out-door. First Table.

The succeeding Tables, except that at page 168, which relates to the weekly returns, being comparisons, or the results of comparisons, of the pauperism of the 1st July 1858 with that of the 1st July 1857 and 1856, are limited to the places returned in the last-named years; that is, to 627 Unions and Single Parishes, having an aggregate Population, according to the Census of 1851, of 16,529,865. Tables of 627 Unions.

The paupers in receipt of relief on the 1st July 1856, 1857, and 1858 are shown by the next Table. Paupers of all classes.

If the divisions principally affected by the commercial difficulties of last autumn be separated from the other portions of the kingdom, it will be found that the latter showed a small decrease in the number of paupers relieved. This is set forth in the next Table. Decrease in other Divisions.

Increase of Able-bodied Pauperism.

The increase in the rate per cent. of adult able-bodied paupers on the 1st July 1858, compared with the same day of 1857, was 2·6 for the whole country. But, the following Union-Counties which exhibited an increase on the 1st January last, in the adult able-bodied pauperism, far beyond the average, are now considerably reduced in this respect; although the returns from West York, Lancaster, and Derby indicate the continuance of considerable pressure.

* The return from St. Pancras does not discriminate the number of Able-bodied Paupers relieved; it is therefore omitted from this Table.

† The term "Adult" has, in the Tables of Pauperism, been always applied to Paupers aged 16 years and upwards.

No. 34.

WEEKLY RETURNS OF PAUPERISM FOR THE YEAR ENDING JANUARY **1859,** AND FOR THE CORRESPONDING WEEKS OF THE PREVIOUS YEAR.

[No. 98. A. I. to XIII. Sess. 1858.]

MEMORANDUM as to the WEEKLY RETURNS of PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1857), the number contained in these two classes was less than 2·0 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number to the same degree as the other classes of Paupers, and the number of Vagrants relieved by the Unions throughout the country has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are 14,698* parishes in England and Wales maintaining or liable to maintain their own poor: returns of pauperism are received weekly in respect of 14,410 of that number; 288 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers whom they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:—

Memoranda as to the recent Increase of Pauperism.

The recent distress in the manufacturing districts commenced last Autumn, with an increase of pauperism in Lancashire and Cheshire (North Western Division); it subsequently spread to the other seats of manufacture in the North. By the 1st week of November, the increase was appreciable in the aggregate pauperism of the kingdom, when the numbers relieved were 828,759, which was 24,181 in excess of the 1st week of October; from this time they rose to a *maximum* of 1,003,204 in the 2d week of March; thenceforth until Midsummer, a weekly diminution of varying amount has taken place, leaving the numbers very nearly as they were when the pressure began, namely 833,472.

The rise continued for 20 weeks, but the fall to the initial amount was effected in 15 weeks, during which 169,732 persons went off the rates. The fluctuations from week to week are set forth in the subjoined Table:—

The whole of this rise, as measured by a comparison of the proximate weeks, cannot be ascribed to the cessation of manufacturing employments; in the winter season an increase of pauperism constantly occurs, having its *maximum* about the middle of February.

A comparison of the 35 weeks under consideration with the corresponding weeks of the two previous years, will afford the means of

eliminating, to a considerable extent, the amount of pauperism due to the temporary depression of trade.

The *maximum* amounts were attained in the first and second years (cols. (*a*) and (*b*),) on the first and second weeks of February respectively; but during last winter, in consequence of the continued increase of distress, the *maximum* was not attained till the second week of March. The *minimum* amounts all occurred in the fourth week of June (Midsummer); on that week of the present year, the numbers relieved only exceeded those of the corresponding week of last year by 4,091, and fell short of the numbers relieved at Midsummer 1856 by 17,055. These figures indicate that the labouring population are obtaining the advantages of full employment, although some remains of the late depression still linger in the West Riding and in Lancashire. This however is compensated by greater activity in other parts of the kingdom.

Memoranda as to the Decrease of Pauperism.

In the Memoranda prefixed to the Comparative Statement of Pauperism for the month of June last, two tables were given for the purpose of exhibiting the increase of pauperism which had arisen from the pressure in the manufacturing districts; and its subsequent diminution, from the gradual resumption of employment in those places, and the general increase in the prosperity of the country (*see* ante, page 219).

That information is continued here, for the three months which have elapsed since the publication of that return.

PERIODS.	Number of Paupers on the Last Day of each Week.	Difference between the Proximate Weeks.	
1858:			
June:		Incr.	Decr.
Fourth week	833,472	—	5,325
July:			
First week	822,034	—	11,438
Second week	819,544	—	2,490
Third week	819,172	—	372

Second week	807,979	362	—
Third week	808,581	602	—
Fourth week	811,362	2,781	—

This Table shows that the decrease in the number of paupers continued until the 4th week of August, when the numbers had fallen to 807,055; but that they rose slightly in September, in the 4th week of which they were 811,362. In the 2d week of March last, pauperism had attained its maximum amount, that is 1,003,204; from this point the fall in the

numbers continued, almost without interruption, during the 28 subsequent weeks, so that by Michaelmas (4th week of September), the number of paupers on the relief lists had fallen to 811,362, being a decrease of 191,842, or 19·12 per cent.

In the next Table the weekly numbers relieved are compared with the numbers in the corresponding weeks of 1856 and 1857. The pauperism of the last three weeks of September was lower than that of the corresponding periods of 1856 and 1857 respectively; the decrease on the former year was 5,948, and on the latter 4,833.

Memoranda as to the Decrease of Pauperism.

In the Memoranda prefixed to the Comparative Tables of Pauperism for June and September last, tables were printed exhibiting the fluctuations in the number of paupers relieved, from the 1st week of November 1856 to the last week of September 1858 (*see* ante pages 219 and 234.)

Similar Tables are inserted here, bringing down the information to the close of last year. In the first Table, which gives a comparison between the consecutive weeks of the Christmas quarter, a gradual rise in the numbers will be observed; this commenced in the 2d week of October, and continued to the end of the year. The increase, which is usual in the winter months, is due to the decrease of employment at that season. Between the 1st week of October and the last of December, there was an increase of 55,796 paupers, or 7·0 per cent.

In the subjoined Table the numbers relieved are compared with those in the corresponding weeks of 1856 and 1857. Each week of the last quarter shows a decrease when compared with the corresponding weeks of 1856 and 1857. There were 23,313 fewer paupers on the relief lists in the last week of the past year, as compared with 1856; and 78,912, as compared with 1857.
